

Graduate Achievement Data Disclosure (GAD)

Make sure the GAD table includes the **university/program's name, initial date of accreditation, and advertised program length.**

If the program has a Full-Time and Part-Time track, the program needs to provide the advertised program length for both tracks.

Example:

Advertised Program Length: FT: 3 years, PT: 5 years

“Not Accredited” should be used for cohorts from before the program’s initial accreditation.

Note: Some programs may start their table at the cohort they were accredited on the GAD table on their website.

Programs are only required to provide data on the past 9 years/cohort or since the program was initially accredited, whichever is shorter.

The data on the Graduate Achievement Data Disclosure Table, which is published on the website annually, needs to be consistent with the Graduate Achievement Data reported in the program’s Annual Report.

“In Process” or “IP” should be used for recent cohorts that the program is in the process of collecting data because students are still in the process of completing the program within the advertised time-frame. Refer to Annual Report Guide for more information.

Example: The # of Students enrolled and the Graduation Rate in the Annual Report below are consistent with the # of students in the program and the Graduation rate displayed in the GAD table above.
